Everyday I Die A Little

Money Mark

Baby, oh, my friend, I get high with you Put the blue back in the sky for you

Everyday I die a little Everyday I live a lot

Everyday I die a little Everyday I live a lot

When you walk away, I want you back I do the math and nothing adds up

When you take a step, you're so intact No one can bring you down I know I would never bring you down

Baby, oh, my friend, stay the night with you And there's nothing that I got to prove

Everyday I die a little Everyday I live a lot

Everyday I die a little Everyday I live a lot
