

Keep The Hurt At Bay

Moneybrother

I get off at three o'clock in the morning
That's just how it is and it won't change
Ain't sad enough to tear

You and me were always out there dancing
But I don't get around much anymore
Ain't sad enough to tear
I'll keep the hurt at bay

Refr
Ain't sad enough to tear for you
You just left me merely blue
And i'm not sure what's left to say
Got left along the way

Kept telling my friends
Don't worry, in time I'll make it through

But I can't smile
Because you see
It didn't work out, no
Not good at all for me

I'll keep the hurt at bay
But how could you leave me right along the way

Seems to work out right for all my friends
It never ever works out right for me
Why never, ever for me then
The door is locked and I can't find the key
