

# Big Mistake

Monica

Gave you a chapter of my life  
I Wish that I could rewrite  
All the shit that was done in the dark  
Finally came to light  
Ten years I was with you  
I remember everything you put me through  
And I think that I'm the blame  
For thinking you would change

I made the biggest mistake  
Biggest mistake  
To think that you would change  
You would change  
Sayin bye bye  
What was this all for  
Made no mistake you won't be my mistake no more  
Made no mistake you won't be my mistake no more oh

You can go and run to her  
'cause I don't wanna see your face  
It reminds me of a scar  
That can't be erased  
These tears in an empty room  
Constantly remind me of you  
And I think that I'm no blame  
For thinking you would change

I made the biggest mistake  
Biggest mistake  
To think that you would change  
You would change  
Sayin bye bye  
What was this all for  
Made no mistake you won't be my mistake no more  
Made no mistake you won't be my mistake no more oh  
No no no no

I'm sayin goodbye to all the memories  
I regret even tryin to give you a chance  
I'm not perfect everybody makes mistakes  
But the one I made  
I made for choosing you after all we went through

I made the biggest mistake  
Biggest mistake  
To think that you would change  
You would change  
Sayin bye bye  
What was this all for  
Made no mistake you won't be my mistake no more  
Made no mistake you won't be my mistake no more oh  
No no no no

Now now now that I've made the biggest mistake  
Biggest mistake  
To think that you would change  
You would change

Sayin bye bye  
What was this all for  
Made no mistake you won't be my mistake no more  
Made no mistake you won't be my mistake no more oh
