

A Song For All Nations

Monkey Business

A song for all nations

This is a song for all nations
For every radio station

Now if you want to see the top
Become the ace of all the charts
It's time to pull out all the stops
A single hit goes for the hearts

Don't walk too long to start to sing
and do it in a happy voice
Just make the audience the king
and put away all silly noise

The chorus shall be coming soon
Make sure it's just a simple line
Reggae and ethno is a boon
use it and you will be doing fine

Your giutar solo must be short
you do not need it anyway
or all the drivers will be bored
and they should always have a say

Now go away and write your song
the rules may help when you get stuck
Above it all you must be strong
because what you really need is luck
