

Saving Grace

Mono Inc.

I took the bait but I was choking on it
An empty body with aboullic lips
I couldn't breath, couldn't think
couldn't speak I've seen the poison spring
I heard my heartbeat and heard the angels sing

So if I stare tonight
Into your deep wide ocean
You'll be my last resort at all times
So if I plunge tonight
In good faith and devotion
I see the saving grace in your eyes

I tried it harder but I couldn't move
It came and got me I ain't acid-proof
I bring you freedom, peace and changes
said this crushing thing
But gravity just made my angels sing
