

# Leaving Solitude

## Moonlight Agony

[Solo: Peson]

Stuck in isolation  
From the bottom I must rise

What went wrong, what could I've done?  
I was blinded by my self-contempt

Leaving this world, leaving everything I ever knew  
There was love and hatred, joy and sorrow, but always pain  
Leaving solitude, restrain my inner fear, my only choice

Lost like a stray dog  
Who shall guide me on my path?

No one else but me  
Now I take the step, what have I to lose?

Leaving this world, leaving everything I ever knew  
There was love and hatred, joy and sorrow, but always pain  
Leaving solitude, restrain my inner fear, my only choice

[Solo: Landin / Mellström]

Leaving this world, leaving everything I ever knew  
There was love and hatred, joy and sorrow, but always pain  
Leaving this world, leaving everything I ever knew  
There was love and hatred, joy and sorrow, but always pain  
Leaving solitude, restrain my inner fear, my only choice
