

# Breathe (Until We Are No More)

Moonspell

Breathe in,  
Breathe out,  
You reached the top of the chain  
Inhale  
Exhale  
You made it 'til the end of day

Every man's a sinner  
Every man's a liar  
Life's a slow procession into the fire

Carry the weight or crush under it  
Carry the weight or crush

Every man's a sinner in the name of the father  
History's repeating into the fire

Carry the weight or crush under it  
Carry the weight or crush

We started wanting to be ourselves until we are no more

Breathe in,  
Breathe out,  
You reached the top of the chain  
Inhale  
Exhale  
You made it 'til the end of day

Every man is a leader  
Every man is a martyr  
Every man is in trouble caught in your fire

Carry the weight or crush under it  
Carry the weight or crush

We started wanting to be ourselves, to live our lives  
We went too far perhaps beyond control until we are no more

[3x]  
Breathe in,  
Breathe out,  
You reached the top of the chain  
Inhale  
Exhale  
You made it 'til the end of day
