## **Ghostsong**

## Moonspell

Outside the mythic Rains
let us know we are not insane
blood debts still to be paid
(instead)we celebrate the Stranger
Inside the mythic Pains are played

blood doubts are asked again beware the answers you can not tame

(might)take you too far away
I am going haunt you
Come here to haunt you
Say what you will
Say what you are
I am going hurt you
And protect you

And if we survive this dawn we wish we'd see the Day die to comeback a single time that face in the window is never the same
Say what you are

Come here to haunt you I am going haunt you And protect you Say what you will I am going hurt you
