

Nocturna

Moonspell

High heels of crystal
stuck in the heart
daylight that heals
the fullmoon scars
Spider strategy
and the wish to be
at one with me
throughout the fright
It is so real
So full of light
(when) Nocturna steals the night
Sister of cain
all our breed slain
the youthful oath
is still the same
le mal de vivre
that never ends
but the hunt (for you) goes on
throughout the night
It is so real
So full of light
(when) Nocturna steals the night
