

# Hypnotized

Morcheeba

Poison or medicine  
Black snake has shed its skin  
Coiled up, let me in  
Speak in tongues, I'm in a spin  
Sacred space, hiding place, serpent face  
I'll handle you, handle you  
Poised to strike, deadly bite  
Despite my fright  
I'll handle you, handle you

Feel the healer's fangs  
Vengeful venom glands  
Dead man, join your god  
I'll charm and disarm my cobra

Staring straight into my eyes  
No surprise, yeah you're hypnotized  
Looking right through your lies  
It's not wise, got you paralysed

Love your style, when you're wild  
Sweet reptile  
I'll handle you, handle you  
Layers of scales tell the tales  
We can't fail  
I'll handle you, handle you

Feel the healer's fangs  
Vengeful venom glands  
Dead man, join your god  
I'll charm and disarm my cobra

Staring straight into my eyes  
No surprise, yeah you're hypnotized  
Looking right through your lies  
It's not wise, got you paralysed

Staring straight into my eyes  
No surprise, yeah you're hypnotized  
Looking right through your lies  
It's not wise, got you paralysed

Staring straight into my eyes  
No surprise, yeah you're hypnotized  
Looking right through your lies  
It's not wise, got you paralysed

Staring straight into my eyes  
Looking right through your lies  
Staring straight into my eyes  
Looking right through your lies
