

# Come Fly

Morgan Heritage

We don't need process distraction  
Only mentions creation  
We're the natural vibration  
Positive elevation  
It's a sticky situation  
All this phony presentation  
Deceiving the population  
This the revelation

So won't you come fly  
Come and fly high  
Elevate your mind  
Come fly high with we  
Won't you come fly  
Come and fly high  
Elevate your mind  
Come fly high with we

Can't take all this contention  
Tired of all these illusions  
One new act of aggression  
What we want is progression  
This is our proclamation  
To each and every nation  
Together nest a solution  
In the revelation

So won't you come fly  
Come and fly high  
Elevate your mind  
Come fly high with we  
Won't you come fly  
Come and fly high  
Elevate your mind  
Come fly high with we

Oh, must it take a worried madman  
To sing our people's song?  
What we need is already in hand  
To take back what we've lost

So won't you come fly  
Come and fly high  
Elevate your mind  
Come fly high with we  
Won't you come fly  
Come and fly high  
Elevate your mind  
Come fly high with we

Come fly high  
Come fly high  
Come fly high  
Come fly high  
Come fly high
