

Everything Is Still Everything

Morgan Heritage

If your all worked down, wear a smile or a frown
Everything is still everything
If you're smart or dumb, if you walk with your mum
Everything is still everything
If your nice or mean, if your bat or lean
Everything is still everything
Wanna live on earth for the moon
Ripe the stars of the sun
Everything is still everything

For if a so Jah say, a so Jah say (Jah say)
Everything has to go Jah way (Jah way)
And from the world is always turning
Every day something new we learning

If you find out your friend ain't really your friend
Everything is still everything
And if your car breaks down in the middle of town
Everything is still everything
And if your day starts good and it goes like it should
Everything is still everything
No matter if the day goes bad and your feeling sad
Everything is still everything

For if a so Jah say, a so Jah say (Jah say)
Everything has to go Jah way (Jah way)
And from the world is always turning
Every day something new we learning

If your all put out, wear a smile or a crown
Everything is still everything
If you're smart or dumb, like you walk around
Everything is still everything
If you find out your friend ain't really your friend
Everything is still everything
And if your car breaks down in the middle of town
Everything is still everything

For if a so Jah say, a so Jah say (Jah say)
Everything has to go Jah way (Jah way)
And from the world is always turning
Every day something new we learning

Everything is still everything...
