Mi say di wicked nuh no future
Remember say the children are the future
And tru Jah bless

Have no fear for Jah world is world without end
Surround by politician and dem friend
All they want us to do is live in fear
Through the media they have the people scared
Have no fear for Jah world is world without end
Surround by politician and dem friend
All they want us to do is live in fear
Through the media they have the people scared

Rasta don't know which way they're trying to get the world to go
All we know, Jah Rastafari's in control
We shall not fear for these man of evil shall not prevail
For on the hand of Jah
There rest the universe a' clock, yeah
So time is of no essence
Jah is the beginning and Jah is the end my friend
Uplift your heart and soul
Let not the system get you down

As far as their eyes can see
They feel they're controlling you and me
But to the ends of the earth
Remember Haile Selassie comes first
So their mind could never overcome right
And what's in the dark will must have to see light
Now be wise and never be victimized
Now remember time is of no essence my friend
Jah is the beginning and Jah is the end
Uplift your heart and soul
Remember Jah is in control

So have no fear for Jah world is world without end
Surround by politician and dem friend
All they want us to do is live in fear
Through the media they have the people scared
Have no fear for Jah world is world without end
Surround by politician and dem friend
