

Help the Needy

Morgan Heritage

What a day it would be
When we all have a heart to help the needy (Won't you help the needy)
Beres will you help us sing this one (Oh yes I will)

Oh help the needy
When they are crying out crying out crying out

There'll come a time when you will hear a certain cry
Cry of need
There'll come a time when you will have to answer that call
Oh yes indeed
Even if you wanted there is nothing you can do about it
Try all you can there is no way of getting around it
You got to

Give a little love where it's needed (You got to)
Lend a helping hand where it's wanted
You should help your neighbour who is falling (Help your neighbour)
You will get your blessings ever rising (Ever rising)
Give a little love where it's needed (Where it's needed)
Lend a helping hand where it's wanted (Oh yes you got to)
You should help your neighbour who is falling (Who is falling)
You will get your blessings ever rising (Ever rising)

One day we've got to face the truth (Oh yeah yeah)
You are my brother and you are my sister too
So don't be laughing if the grass is greener on your side (On your side)
The love amongst all God's children has got to be intensified

So give a little love where it's needed (Can you? can you?)
Lend a helping hand where it's wanted (Give a helping hand)
You should help your neighbour who is falling (Yes you got to)
You will get your blessings ever rising (Ever rising)
Give a little love where it's needed (Give love)
Lend a helping hand where it's wanted (Where it's wanted)
You should help your neighbour who is falling (Mmmmmmm)
You will get your blessings ever rising

And I know God will be smiling down on you
If all you do is good and true
True in His name true for His name sake
Yes I tell you this is all we got to do

So give a little love where it's needed (Yes you got to)
Lend a helping hand where it's wanted (Where it's needed)
You should help your neighbour who is falling
You will get your blessings ever rising (Ever rising)
Give a little love where it's needed (Oh yes you got to)
Lend a helping hand where it's wanted (Come on come on)
You should help your neighbour who is falling (Mmmmmmm)
You will get your blessings ever rising (Ever rising)
Give a little love where it's needed (Where it's needed)
Lend a helping hand where it's wanted (Come on come on)
You should help your neighbour who is falling
You will get your blessings ever rising
Give a little love where it's needed
