

Light It Up

Morgan Heritage

Selassie I know Dreadlocks
Right yah know I and I go light up the world
Oh yeah
Selassie I know
(Morgan Heritage, light it up)

Listen reggae music, free up to reggae music
This is reggae music, now (Morgan Heritage say)
Listen reggae music, free up to reggae music
This is reggae music, now

Light up the incense, light up ishence
Light up the lighters, mek we light up the world, yeah
Inhale the fragrance, free up your mind
And leggo bad mind and make all evil get purged, yeah
Don't get caught in the road block (road block)
Everyone one accord is the slogan, yeah
Love is the potion that confirms your notion
That is one love I and I a deal with for sure, yeah

Now there's a time and a place
For everything and this is the time
To free up your mind, body, soul, heart, everything
Let the music take control of you
Give you freedom to do your thing
And play your part in lighting up the world
And play your part in lighting up the world (light it up)
The future can be brighter (light it up)
Lift us much higher, higher, higher, uh huh
