Some of us ain't got nowhere to go (got nowhere to go)
So believe it or not we settle for the little bit that we own
When it ain't got no value
When it ain't got no future
What are we the people supposed to do when living feels like torture?

Get up out your own way (get up get up get up)
Find yourself a better way (getup get up get up)
The world is yours

Get up out your own way (getup get up get up)

You can't blame them for trying, no
When they us inciting, yeah
Di constant fighting, violence never-ending, inner city youths falling
It's time for us to shake up and wake up
Take up our blessings like our name was Jacob
No more contemplating just say this my ting

Your consciousness will be rising
So help your brother and your sister
We're all the children of the father
No finger pointing
A new day dawning
Can you see it?

Get up out your own way (get up get up get up)
Find yourself a better way (getup get up get up)
The world is yours

Now do something with yourself, do something with yourself
(Get up and go)
Your life is yours to live, your life is yours to live

Don't a false pretender, nor an imposter
Set your agenda
(Get up and go)
Strive to be a winner, nothing but a winner yeah
(Now get up and go)
Now if you fall, be sure to rise again
(Get up and go)
Never let nothing keep you down, never let nothing keep you down
(Now get up and go)
