

# Addicted

Morgan Page

You say that you'd be back now  
After your last more flight  
And so I see you off well  
And look the other way with all my might

And I, I might be addicted  
To where and how you land up on your feet  
Yeah, I might be addicted  
To how you always get the best of me

I say out loud this is the last time  
I say out loud this is the last time

I wonder if you'll back down  
There is no end in sight  
Am I a fool to hang on  
And will we ever really get it right?

And I, I might be addicted  
To where and how you land up on your feet  
Yeah, I might be addicted  
To how you always get the best of me

Universe, how strong am I?  
There's one more exit flies on by

Yeah, I, I might be addicted  
To where and how you land up on your feet  
Yeah, I might be addicted  
To how you always get the best of me

Yeah, I, I might be addicted  
To where and how you land up on your feet  
Yeah, I might be addicted  
To how you always get the best of me
