

Beautiful Disaster

Morgan Page

I'm standing on the ashes
Of the bridges I've burned
I'm laughing striking matches
To the lessons I've learned

We're young and dumb and we don't even need a reason
Our hearts won't break cuz we dance through the dying season

Castles are falling and kingdoms are calling to us
They say we're broken but diamonds are born from the dust

Just beautiful with just you
We're just Beautiful Disasters

Just beautiful with just you
Just Beautiful Disasters

Such beautiful disasters
Yeah that's what we are
To fight to fate is what we're after
The future is ours

We're young and dumb and we don't even need a reason
Our hearts won't break cuz we dance through the dying season

Castles are falling and kingdoms are calling to us
They say we're broken but diamonds are born from the dust

Just beautiful with just you
We're just Beautiful Disasters

Just beautiful with just you
Just Beautiful Disasters
