

# Candles

Morgan Page

I see you dancing there  
You go all night long  
You ain't watchin' no one else girl  
In your zone  
I feel the air ignite  
I wanna strike the match  
You ain't with nobody else girl  
Let me know

'Cause I love the way you are  
But you won't let down your guard  
And I need you to just open up for tonight  
I give you my love, 'cause I need you now  
I give you my all before these candles burning out  
I wanna love you, I'm singin' it loud  
Baby I'm floatin', there's no way I'm coming down  
And our heart's beating in time  
Make you feel like we escaped to paradise  
I give you my love, 'cause I need you now  
I give you my all before these candles burning out

I give you my all before these candles burning out

I'm living in a dream  
While we chase the light  
It's a fantasy waiting here come to life  
Let me take you there  
We're running out of time  
And if you hold my hand I'll show you how to fly

'Cause I love the way you are  
But you won't let down your guard  
And I need you to just open up for tonight  
I give you my love, 'cause I need you now  
I give you my all before these candles burning out  
I wanna love you, I'm singin' it loud  
Baby I'm floatin', there's no way I'm coming down  
And our heart's beating in time  
Make you feel like we escaped to paradise  
I give you my love, 'cause I need you now  
I give you my all before these candles burning out

I give you my all before these candles burning out
