

Footprints

Morgan Page

I know you're not invincible
Cos every stroke it takes its toll
I'm walking back and never fall
And I made it out alive
Take my hand you know there's more to life

When the night takes you far from home
Wherever I go you can follow
If you feel like you're on your own
Keep on looking I'm leaving footprints to follow
Footprints to follow...

I walked a mile in your shoes
When it's dark the light breaks through
I'm walking back and never fall
And I made it out alive
Take my hand you know there's more to life

When the night takes you far from home
Wherever I go you can follow
If you feel like you're on your own
Keep on looking I'm leaving footprints to follow
Footprints to follow
Footprints to follow

Yeah, you can follow me home when you're feeling alone
Yeah, you can follow me home when you're feeling alone
I'm leaving footprints to follow
Footprints to follow
Footprints to follow
Footprints to follow
