

Lost

Morgan Page

I'm lookin'
For my dreams as I run
Could you remember where I'm from, cause its not showin
Now I don't know, what I'm fighting for
Is it real?
I'm not sure

If I'm lost, can you help me out?
I don't know where I am going
And my head gets filled with doubt

If I'm lost, can you help me out?
I don't know where I am going
And my head gets filled with doubt...

I been so high
I couldn't see where the ground is
It's only me
And my reflections staring up
Can you bring me down
If I scream
Would you hear the sound
Or am I alone right now
I'm getting older, the months growing colder
And I don't know how

If I'm lost, can you help me out?
I don't know where I am going
And my head gets filled with doubt

If I'm lost, can you help me out?
I don't know where I am going
And my head gets filled with doubt
