

One Day

Morgan Page

You're covered in dust,
the rest of your life said
you wanna let go
but you cant even manage,
Hush, appreciate time
you're locked to the ground [?]
you like to run
certainty follows
you.
Uh uh uh

[Chorus]
In a daze in the pouring rain I'll wait,
one day you come and shake me
I can appreciate the [?](ride) that you gave me. [repeat x2]

Uh uh uh

where do you draw the line,
today I can let go,
I keep my head up
I just keep on hanging on
one day is not so much
next day you fall in love
my hands are tied you just keep on hanging on

Uh uh uh
