

Save You

Morgan Page

Who am I if I don't have all the answers
Am I what I feel inside or am I just these thoughts
Tell me what's real, what's right
Are you falling apart?
Baby, I'm here tonight
It could just be you and I

If you're alone tonight
I'll be the one to save you
And you already know, oh, girl
(You're so beautiful)
I'll be the one to save you

The time is right, you go to see me
We're falling down, I got you, baby
High against it to pull you out
I'll be the one to save you

Close your eyes, I'll make the world disappear
Won't let you go, hold tight
It could just be you and I

If you're alone tonight
I'll be the one to save you
And you already know, oh, girl
(You're so beautiful)
I'll be the one to save you

The time is right, you go to see me
We're falling down, I got you, baby
High against it to pull you out
I'll be the one to save you

I'll be the one to save you

Tell me what's real, what's right
Are you falling apart?
Baby, I'm here tonight
It could just be you and I

If you're alone tonight
I'll be the one to save you
And you already know, oh, girl
(You're so beautiful)
I'll be the one to save you

The time is right, you go to see me
We're falling down, I got you, baby
High against it to pull you out
I'll be the one to save you
