Think of You

Morgan Page

When I think of you
My heart, it tells me to
Just keep it on the down low
And never, ever let you know
I think of you
I'm afraid that you will turn and walk away
I think of you
I'm afraid that you will never know my name

Oh, when I think of you
I know what I gotta do
When I think of you

When I think of you
My heart, it tells me to
Just keep it on the down low
And never, ever let you know
I think of you
I'm afraid that you will turn and walk away
I think of you
I'm afraid that you will never know my name

When I think of you

I know what I gotta do
When I think of you
