

## Reborn

Morifade

The hope is lost in the glass of time  
To say a prayer's in vain  
After all nothing will remain  
The sins we've made still widen the wounds  
A dying legacy  
In the breed of new technology

Take us to a place where we can save our souls  
From the ashes of the earth into nevermore  
Our souls will remain

Fly...we'll reach the sky  
Reborn here after  
Die...to remain in afterlife  
Fly...from here and now  
Reborn here after  
Die...for a greater paradise

We've lived our lives, now we're left to die  
The Armageddon's vague  
Will arise with a fiery plague  
The end of days lies before us now  
We'll reach infinity  
Then we'll breed a new mythology
