

# Destroyer of All

Mors Principium Est

It's time for a fight  
It's time for another round  
I'll take you down with the fire  
Never again, never again  
I will fight  
I will fight for the last time  
I'll show you the meaning of hell  
One more time, one more time

Now hear the lies of the unborn child  
Nothing but truth will be told when you kill the  
Spawn  
Now bring their souls against the wall and forget  
Them all  
Just paint the sky fully red with their blood

See this blade  
This blade is gonna slice you up  
I will skin you down from  
Head to toe, head to toe  
The fire burns within my soul  
It won't fade away  
Maybe I'll survive  
To see another day

For a century I will hold the key  
To open the gates to this forgotten world  
When it's time to leave all across the seas  
I will close the gates and find another place

For a century I will hold the key  
To open the gates to this forgotten world  
When it's time to leave all across the seas  
I will close the gates and crush the human race
