

The Killing Machines

Morta Skuld

You dont know me for I have no name
I have many faces for I am one in the same
I am your hate Iam your greed
I am your lust for im the killing machine
The hate running through our hearts
Is what we've created
This is what should be fought
Not what should escape
The fight to survive
Its man against machine
An assassin in the night
Its man against man
I am your hate
I am your greed
I am your lust
For I'm the killing machine
The obstacle in your way
The path you can't find
Your tears as you cry in pain
To destroy our minds
You don't know me
For I have no name
I have many faces
For I will always remain
