Mortal Sin

The victim was a homeless man
That no one ever knew
They found him in an alley way
Hidden out of view
Now he's in a body bag
Waiting to be found
We'll never know his story
If he's buried in the ground

The victim is a man without a name
Dragging us through shame
The victim is a governmental game
This is not a game!

Do you deny the allegations?
Do you wanna know the truth?
Do you deny the allegations? Deny!
Do you deny? Do you Deny?
Do you deny? Deny!

The victim was a prostitute
With needles in her vein
No one ever cared about
Her suffering or pain
Pariah of humanity
She'd gotten in the way
A victim of the system
Or the hero of the day?

The victim was a girl without a name
Dragging us through shame
The victim is a governmental game
This is not a game!

Do you deny the allegations?
Do you wanna know the truth?
Do you deny the allegations? Deny!
Do you deny? Do you Deny?
Do you deny? Deny!

Victim of society
Immeasurable defence
Community anxiety
The wrong side of the fence
Suicidal tendencies
Listen to the lies
Human race emergency
The human race denies
