Hey, top priority

Peace before everything God before anything Love before anything Real before everything

Home before anyplace Shoot before anything Style and state radiate Love power slay the hate

Truth killer, flakey face Players say it to they face Ain't afraid to major straight Race at the table straight

Flow greatest like the greatest lakes Capes all greatest states Quiet water major waves

Steer the course make a way
And come ashore on a greater day
Home grown from the greatest grain
Full flavor in the native strain
Now put that on your brainy brain

Full exposure to favorite slang
Minimal wage and major gangs
Y'all seen them play the bait
Later night from day to day they came to play
We came to stay get out the way

Biotch, sun spot heat rocks
Brooklyn finest, preservation to beat box
pitiful poison to detox
When we rock the people I respond priority

Peace before anything God before everything Love before anything Real before everything

Home before anyplace Shoot before anything Style and state radiate Love power slay the hate, priority Love power
