

Step Up

Mos Generator

I bring you a hand full of silver
I touch you and make it alright
The warmth of the hand I deliver
Will pull you down into the night

Find a way up into the light

I've heard you cry into darkness
I've seen you fall to the ground
But I can never be with you
'Cuz I can never be bound

You better find a way up into the light

I know you feel lost
But you better find a way
Step up - Into the light

Step up and get with it
You better find a way
