

Brand New Numb

Motionless in White

I've got a shotgun tongue
And tick like a time bomb
All black everything
I've got a switchblade wit
That cuts like a bitch
And I think you two should meet

I wanna break free from my humanity
I wanna release the animal in me
Break free (from) your curiosity
You're gonna give me what I need.

I've got blood on my hands
No guilt on my conscience
The war in your path, the "sex in your violence"
All of my flaws I wear 'em with honor
A purple heartbreak for all we've suffered

I am the enemy
I am the enemy
I am the enemy
Here to save the day
I'll be the enemy
E-e-e-enemy
I'll be the enemy
Enemy, enemy
I got a brand new
I got a brand new
I got a brand new, brand new numb
I got a brand new
I got a brand new
I got a brand new, brand new numb

I'm in your blindspot,
God while I get your rocks off
Worship to the beat
I wanna thank you, come again, that was great, do you need a receipt?

I wanna break free from my humanity
I wanna release the darker side of me
Break free (from) your curiosity
You're gonna give me what I need.

Now I still have
I've got blood on my hands
No guilt on my conscience
The war in your path, the "sex in your violence"
All of my flaws I wear 'em with honor
A purple heartbreak for all we've suffered

I am the enemy
I am the enemy
I am the enemy
Here to save the day
I'll be the enemy
E-e-e-enemy
I'll be the enemy

Enemy, enemy

I got a brand new
I got a brand new
I got a brand new, brand new numb
I got a brand new
I got a brand new
I got a brand new, brand new numb

Give me liberty or death
Charge me more and pay me less
I said give me liberty or death
ahh fuck it, just give me death

[Scream]
Let's go!
Yeah!
This one's for the underdogs

I've got blood on my hands
No guilt on my conscience
The war in your path, your mind is the target
All of my flaws I wear 'em with honor
A purple heartbreak for all we've suffered

I am the enemy
I am the enemy
I am the enemy
(Brand new numb)
I'll be the enemy
E-e-e-enemy
I'll be the enemy
Brand new numb
