

LOUD (Fuck It)

Motionless in White

You gotta be loud
You gotta be rude
So the world can hear you
You gotta be crass
You gotta be cold
It's everything we know
Turn it up, turn it up now!

Another day, a double shot of hate
Drink it up like gasoline
Underpaid, you graduate
To build somebody else's dream

With a noose as a tie...
Do you fantasize of a much different life?
The fix for who they want you to be
Directly streamed to your TV

And when they turn their backs on you...

You gotta be loud
You gotta be rude
So the world can hear you
You gotta be crass
You gotta be cold
It's everything we know
Turn it up, turn it up now
Loud
Rude
When nobody hears you
You gotta stand up
You gotta commit
Say "Fuck It", make the best of it

A broken home you're trying to mend
You've got one day left to pay the rent
We're not sure, but we believe in the lie...
That it'll all be fine, when we die

It's so easy to grant the mirror
Power to control what you want to erase
Don't become another victim
"Put a smile on that face"

You gotta be loud
You gotta be rude
So the world can hear you
You gotta be crass
You gotta be cold
It's everything we know
Turn it up, turn it up now
Loud
Rude
When nobody hears you
You gotta stand up
You gotta commit
Say "fuck it", make the best of it

The money's in the treatment, baby, not in the cure
So they fuel your pain with fear and shame and then hand you a brochure
The money's in the treatment, baby, not in the cure
So they build you up to watch you fall and then beg for an encore

What are you waiting for?
What are you waiting for?

You gotta be...

You gotta be loud
You gotta be rude
So the world can hear you
You gotta be crass
You gotta be cold
It's everything we know
Turn it up, turn it up now
Loud
Rude
When nobody hears you
You gotta stand up
You gotta commit
Say "fuck it", make the best of it

Make the best of it
Fuck it, what are you waiting for?
Another day, a double shot of hate
It's everything we know
Drink it up like gasoline
Fuck it, make the best of it
