

## Bartok of the Universe

Motorpsycho

Silver sleek, a line in the sky, an arrow of sorrow  
Tomorrow, now, with power to let live or die  
Pointing to a future so bright, progress forever  
Forever new, as mankind walks into the light  
Iron foundry  
Melt pig, cast steel so blue  
Arc light welder  
Change, transform and make anew  
Space age ace, a hero serene, man of tomorrow  
Tomorrow's chief, unruffled so straight and so clean  
A figurehead so straight and cold, a leader forever  
Forever, man, so swift and so true and so hold  
Iron foundry

Melt pig, cast steel so blue  
Arc light welder  
Change, transform and make anew  
Hold steel, cold fire, intent and real raw power  
A dream unravelled, the bell tolls every hour  
Brave new world, much better than this, a conquest of sorrow  
Tomorrow, now, we balance with view to the abyss  
Know it's here and know it's for real, the sprawl is forever  
Forever new, forever as new as a kiss  
Hold steel, cold fire, intent and real raw power  
A dream unravelled, the bell tolls every hour
