

## Demon Box

Motorpsycho

Metallic cocaine be-bop  
sonic rainbow child  
scizophrenia on the mainline  
watch the bugs thrive on your hide  
I need you like I need gangrene (2x)  
Demon box (3x)

I saw you carve Love on your knuckles  
but Madness never equals Style  
more fun east of Eden  
when inches turn to miles  
I need you like I need gangrene (2x)  
too rotten to ever be forgotten,  
the afterlife's secure, now go away!  
Demon box (3x)

It was love» said the father  
It was pride said the wife  
It was duty said the girlchild  
but I know who held the knife.....  
need you like I need gangrene (2x)  
too rotten to ever be forgotten,  
the afterlife's secure, now go away!  
Demon box (3x)
