

## 's Numbness

Motorpsycho

I only feel my numbness  
when I'm touching you  
it doesn't really bother me  
but every now and then  
I get that feeling again....

love is such a lonely thing  
it's never really shared  
to watch us really gets me down  
but every now and then  
I get that feeling again....

don't misunderstand me  
it's not for all to know  
such numbness could choke anyone  
and every now and then  
I get that urge again..  
I get that urge  
that urge
