

# Do You Remember

moumoon

Do you remember?  
That beautiful day you and me fell in love  
You took my hand, and it felt so warm  
In chilly skies of hope  
I remember;  
Do you feel the same? Wanna feel you next to me...  
Forever, I believe  
All I need is your love; I give you my heart

Sometimes love makes me cry  
When you have gone away  
Please don't make me feel alone;  
I will do anything for you  
You know I'll always be your girl,  
'Cuz I will always be your friend

When you aren't around baby, all I think about is you  
I can't find the way to get you out of my mind...boy  
When you aren't around me, all I care about is you  
And you know I miss you everyday more and more

Do you remember?  
When I came to know that we're so meant to be  
The only thing I could do was to pray  
That I would see you again  
I remember  
When I touch your hand, I can feel you close to me  
Forever, I believe  
All I need is your love; I give you my heart

Sometimes you're so brave  
And oh, so fragile  
I won't make you feel alone  
If no one'll try to understand  
You know I'll always be your side  
Cause I will always be your friend

When you aren't around baby, all I think about is you  
I can't find the way to get you out of mind...boy  
When you aren't around me, all I care about is you  
I feel strong when we're together; it scares me  
Woah...

Everytime, everywhere  
When I'm with you, yeah  
Anything goes  
I hate this world  
You changed my life  
To love this world  
You gave me light  
Oh you're my savior  
Ahh...

People make so many promises  
And how many of them are kept?  
Cause' we always forget the important things  
I don't wanna break them anymore

The days you made me smile  
The days we walked hand in hand  
Memories never fade away  
I can't live a day without you  
And you're my everything to me  
Ahh-ee...Yeah Yeah...

Do you remember?  
That beautiful day you and me fell in love  
You took my hand, and it felt so warm  
In chilly skies of hope  
I remember  
Do you feel the same? Wanna feel you next to me...  
Forever, I believe  
All I want is your love

Do you remember?  
When I came to know that we're so meant to be  
The only thing I could do was to pray  
That I would see you again  
I remember  
When I touch your hand, I can feel you close to me  
Forever, I believe  
All I need is your love; I give you my heart

I'll always be your girl...  
I'll always be there...Ooh...
