

I Found Love

moumoon

Take me to the place, to the place where I feel safe
Last night before I fell asleep
I was calling your name again and again

I used to be alone, I didn't really believe in love
But who's to know ? Love was something just others had found
I used to be alone, until you came around that day
And now I know. Love is something to never let go

Would you baby kiss me one more time ? That makes me feel alive

.

Would you baby hold me once again ? Then never let me go.
Would you baby kiss me one more time ? That makes me feel alive

.

Would you baby hold me once again ? Then never let me go.
And you're the only man I wanna be with
And you're the only man I wanna believe

Kusuriyubi ga shibireru you ni kimi wo omoidasu to kyunto naki
sou ni naru yo

Ai to wa dare ga hatsumei shita no deshou ? Hitori ja mitsukera
renai takaramono
Futari de iru to sore wo kanjiru no amakute yawaraka na jikan n
o naka

Mouichido kisu wo shite kurikaeshite
Mouichido dakishimete nido to hanasanaide
Mouichido kisu wo shite kurikaeshite
Mouichido dakishimete nido to hanasanaide

Would you baby kiss me one more time ? That makes me feel alive

.

Would you baby hold me once again ? Then never let me go.
Would you baby kiss me one more time ? That makes me feel alive

.

Would you baby hold me once again ? Then never let me go.
And you're the only man I wanna be with
And you're the only man I wanna believe
