## **Dead Goon**

Nobler than Oedipus Clairvoyant and toothless Foreplay with no friends Premature until the end

I've got a secret Babbling senseless No one will ever know

Kids can be so cruel Smash the feeling Suckle the sugar breast

Too happy - a jerk beyond a smile An asphyxiophile I'm the Humper; stop hitting me Walking the plank, swallowing dirt

Johnny - just skin and juice and hair A hero unaware Tied in a knot beneath giggling My own two hands tickling me

Innocent friction
Boys and girls are stealing my oxygen
Sex? There's no such thing
All that's left is laughing, choking, laughing

Playing solitaire A rope and mommy's underwear Hanging on, letting go Dangling to and fro

NOOO It can't happen here

Floating away Tingling Fluid seeping Family weeping It feels so good So bad But please Don't tease me Mr. Bungle
