

Closing Time

Mr Hudson

It's getting hard to force a smile
It's been one of those days
Don't try to read what's on my mind
There's not much left to say

It's closing time
The end is nigh
Let's fight for each other
Fight for each other
I'll be here
If you need me
But that can't be all of the time

All alone
We're doing this all alone
It's getting dark
All alone
When the light's come on
You'll be all alone

It's getting hard to know exactly
Which questions we should ask
Like are we really here?
And what will happen when we're gone?
So pour another finger in my glass
Something for the pain

It's closing time
The end is nigh
Let's fight for each other
Fight for each other
I'll be here
If you need me
But that can't be all of the time

All alone
We're doing this all alone
It's getting dark
All alone
When the light's come on
You'll be all alone
All alone
We're doing this all alone
It's getting dark
All alone
When the light's come on
You'll be all alone

All alone
We're doing this all alone
All alone
When the light's come on
You'll be all alone
