

What If I Go North?

Mr Hudson

What's the point in tryna
Understand your moves?
Shit got complicated
I took the rough, you took the smooth
Please no regrets!
You taught me things I won't forget
Like you look better naked
And I look better dressed

Love, love, love
I remember it oh so well
But if I can't have you
Then at least I'll have fun with someone
Love, love, love
It was always a nice idea
But if that won't come true
Then someone else will have to do

Are you really standing here
Tryna block my shot?
I know you've been drinking
I know your next thought
People have their different
Ways to grieve
But this is too much information
On your sleeve

Love, love, love
I remember it oh so well
But if I can't have you
Then at least I'll have fun with someone
Love, love, love
It was always a nice idea
But if that won't come true
Then someone else will have to do

Blah blah blah
Well if only you could hear yourself
You should pick yourself up uh huh
And get back in the game
