

Sweet Lies

Mr. President

Do you believe in everlasting love my friend
How can you be so sure
You're telling me you got another way of life
And that's the one and only

I will face the fact
That I will never know
If you tell the truth

Sweet lies - that is all I hear
Sweet lies - every time you're near
The only thing I know is you and me
Can't you see
Sweet lies - turn me inside out
Sweet lies - that is all about
What your love means to me forever
And ever like it seems

Now it's only just a week ago or so
That you were here with me
We fooled around and talked our fantasies
You said that you love me

I will face the fact
That I will never know
If you tell the truth

Sweet lies - that is all I hear
Sweet lies - every time you're near
The only thing I know is you and me
Can't you see
Sweet lies - turn me inside out
Sweet lies - that is all about
What your love means to me forever
And ever like it seems

Sweet lies - that is all I hear
Sweet lies - every time you're near
The only thing I know is you and me
Can't you see
Sweet lies - turn me inside out
Sweet lies - that is all about
What your love means to me forever
And ever like it seems
