```
Let's drop in
Baby let's drop in
You know it can't begin
Until we drop in
```

You gotta relax C'mon baby relax Aw just lay back Release and relax

I know you feel it, yeah I can see it, baby Once you've revealed it, you can't conceal it, baby If you want to free it, you got to reach it, baby

Let's drop in
Let's do it again
And then again and again

Once you've revealed it, you can't conceal it, baby If you want to free it, you got to reach it, baby So let's unleash it and then repeat it, baby

Let's drop in Let's drop in Let's drop in Let's drop in
