

# Not Goin' Down That Road Again

Mudhoney

I'm not goin' down that road again  
Can't tell too many times  
They're gonna follow you my friend  
..... you one more time

Not goin' down that road again

I'm not goin' down that road again  
Ain't nothing new to see  
You know I followed it to the very end  
Nearly ruined me

Not goin' down that road again

I'm not goin' down that road again  
Learn my lesson .....  
I've found the way to heaven  
But I've been on the road to hell

Not goin' down that road again

Not goin' down that road again  
Not goin' down that road again  
Not goin' down that road again  
Not goin' down that road again
