Not Going Down That Road Again

Mudhoney

I'm not goin' down that road again
Can't tell too many times
They're gonna follow you my friend
..... you one more time

Not goin' down that road again

I'm not goin' down that road again Ain't nothing new to see You know I followed it to the very end Nearly ruined me

Not goin' down that road again

I'm not goin' down that road again
Learn my lesson
I've found the way to heaven
But I've been on the road to hell

Not goin' down that road again

Not goin' down that road again Not goin' down that road again Not goin' down that road again Not goin' down that road again
