

On the Move

Mudhoney

All right, the time is now
That's right, The shit is going down
It's time to do what needs to be done
It's high time we make you run

On the move, we're on the move
On the move, we're on the move
There ain't nothing, nothing you can do
We're on the move, on the move

Do you think, you got us all pinned down?
Do you think, we can be found?
We'll get around anything that you got
We'll blast right through 'cause you're so big and soft

We are outside
We are inside
We are so outside
We're on the inside
We are so far outside
We get deep inside
We are so far outside
We're all the way inside
We are so far outside
We're all the way inside
We're so deep underground
We're in the air
We're way out in the open
We don't need to hide
You don't notice us
We are everywhere
