

Think Fast

Municipal Waste

Think fast

Think fast

You'll least expect

Think fast

Its coming quick

Think fast

It's in your face before you even realize it

Think fast

Don't miss a step

Think fast

Seconds late

Think fast

You'll only recognize when it seals your fate

Slow and steady

Thought out already

Everything's under control

Swift and unkindly

Surprisingly blinding

You better act quickly or you're through

Gravity is winning

Just as your regretting

The second that you weren't alert

While your unwinding

Your instincts are finding

The quickest way to not get hurt
