

Up and Down Love

Murphy Lee

Love
Up and down!

See, one minute we're cool, next minute we're not
One minute we're fucking, you telling me don't stop
We, we don't do a whole bunch of argument
8-85% spent partying, the other 15 spent tripping on me
You'll be mad when them other women hitting on me
And I can tell you don't like when I'll be leaving town
Probably cause you know it's about to go down!
Might take a mask with me to slow down
You say that I was wild, especially from what you know now!
Could have been bad all by yourself
But you decided to take that next step, so let's go!

We laugh like the best of them,
Cry like the worst, yeah
Love is good, love is gonna hurt
We always make a problem, yeah
But you know we gonna solve them!
Is that up and down, love
I can't get away now, I can't get oh no

Baby girl, is that
Up and down, up and down love
Is that up and down, up and down love
Is that up and down love!

It feels sorta like my brother, but very different from others
Like a special police lady, you're always in my numbers
It's getting on with this going in my phonish
And I'm always defending wrongish!
Huh, I was out of notice she was family
I was turned up clubbing in Miami
My apologies probably be the worst
But at least it comes from a pair of shoes and a purse
The question always be Diddy
... banking, be boxing like...
Ha, ha, ha anything for my Fifi
Especially if I miss some... pick up!

We laugh like the best of them,
Cry like the worst, yeah
Love is good, love is gonna hurt
We always make a problem, yeah
But you know we gonna solve them!
Is that up and down, love
I can't get away now, I can't get oh no

Baby girl, is that
Up and down, up and down love
Is that up and down, up and down love
Is that up and down love!

Uh, I know the last time I told you sorry
You replied you was tired
Totally understand, but on the other hand

Can you give me a pass, cause I'm a brother man!
Ha, ha, did I know you see the struggle,
All these big, big curves, tight pants with the bubbles
I try to keep my eyes on the road, though
Cause these hoes see me getting there for show, though
Last situation in and I was set up
Yeah, she was trying to get the homie hit up
All these up and down got me feeling like a light switching
You're the only one I spend the night with!

We laugh like the best of them,
Cry like the worst, yeah
Love is good, love is gonna hurt
We always make a problem, yeah
But you know we gonna solve them!
Is that up and down, love
I can't get away now, I can't get oh no

Baby girl, is that
Up and down, up and down love
Is that up and down, up and down love
Is that up and down love!
