

## When You Wake Up in the Morning

Murray Head

When you wake up in the morning  
Sun is shining through the trees  
Now your time is coming to its peak  
Get up off your bended knees  
Hardships are hard to find here  
Everyone's wearing colours  
Knowing the time is right to see  
Hardly the time to dry  
Better the time flies by  
Realize the time is right for freedom...

Now limited your thoughts travel?  
Everybody sees the way you think  
Think a little more of them brother  
Save and row our boat afore it sinks
