

## Cave

Muse

**Dmi**

Leave me alone its nothing serious

**Gm**

I'll do it myself

Its got nothing to do with you

And there's nothing that you could do

**Dmi**

You can see it and you can almost hear it too

**Gmi**

You can almost taste it

Its nothing to do with you

And there's nothing that you can do

**Dmi**                    **D**   **Gmi**

So come in my cave

**Dmi**                    **D**                    **Gmi**

And I'll burn your heart away

**Dmi**                    **D**   **Gmi**

Come in my cave

**Dmi**                    **D**                    **Gmi**

And I'll burn your heart away

**Dmi**

Please close your ears and try to look away

So you'll never hear a single word I say

And don't ever come my way

**Dmi**                    **D**   **Gmi**   **Gmi**

So come in my cave

**Dmi**                    **D**                    **Gmi**

And I'll burn your heart away

**Dmi**                    **D**   **Gmi**

So come in my cave

**Dmi**                    **D**                    **Gmi**

And arrest me for my mistakes
