

# Destroyed By Destruction

Mustasch

Megalomaniacs of the world  
Listen to me now  
You wonder why you have to bow  
Your superior has arrived

Fame and fortune walks with me  
Prosperity I've gained  
Do you want to mess with me  
Please pronounce my name

I'm destruction  
I destroy  
It's but a fraction  
Of what to come

Talent, joy, humility  
Reigns within my state  
Do you want to live in fear  
Feed me with your hate

I'm destruction...

You people of complacency  
Now it's time to die  
Wonder why you have to bow  
Your superior has arrived

Slave, I'm your master  
Kneel before my hands  
Listen to my word that's spoken  
Obey my laws or you'll be broken

I'm destruction  
I destroy  
I'm destruction  
You are destroyed
